

*Your Complete 4wd Storage Solution!*

# Premium Fridge Slides

**100% Australian Made and Owned**

*Single Piece top and base tray*

*Adjustable locking bar*

*Rubber runner stops (no rattles)*

*120kg Rating*

*Easy to fit & Easy to remove*

## Slides to suit all Fridge sizes

<b>Part #</b>	<b>Tray Size</b>	<b>Suits</b>	<b>Price</b>
<b>FSL001</b>	<b>385 X 725</b>	ARB 35L/47L, Autofridge 40L, Dobinsons 40L/50L, Engel MT35F, Engel MT45F, Evakool ED40/IB31/IB40/IB50/RF40,	<b>\$488</b>
<b>FSL002</b>	<b>420 X 725</b>	Bushman 35/42L, Evakool RF47, Evakool Fridgemate BCD30/BCD45/BCD60	<b>\$504</b>
<b>FSL003</b>	<b>460 X 725</b>	Evakool Fridgemate FM55, Evakool RF60, Primus 40Ltr (591540 Stainless), Waeco CFX50/CFX65	<b>\$515</b>
<b>FSL005</b>	<b>505 X 725</b>	Chescold 39L (Dometic F400), Chescold 50L (Dometic RC1180), Primus 60L Duo (591890 Stainless)	<b>\$530</b>
<b>FSL006</b>	<b>505 X 825</b>	Evakool 110L/IB70/RF85, Evakool Fridgemate FM95, Ironman 65L Dual Zone, Ironman 74L, National Lunar 75	<b>\$593*</b>
<b>FSL007</b>	<b>525 X 850</b>	Autofridge 80L, Engel MT60F/MT70F, Explorer DC56/DC70/DC95	<b>\$604*</b>
<b>FSL008</b>	<b>460 x 800</b>	ARB 60L/80L	<b>\$593*</b>

## Premium Fridge Slides

When we were looking for a fridge slide to accompany our drawer systems, we discovered that every slide on the market had flaws. Some rattled, some weren't adjustable, some didn't offer a slide to suit larger fridges, and some were just downright horrible. So, we set about developing a slide that worked. A slide with none of the shortcomings of other brands. It had to be solid to stop the slide from flexing over rough terrain. The only way to do this was to use as few parts as possible. The top and base trays, rather than using a multitude of parts all bolted together, are punched and folded as a single piece. The strap loops are also incorporated into the top tray to eliminate the need for welds (that break).

We also noticed that a lot of fridges came in insulating bags. These bags had a tendency to rub on the runners of some slides and eventually tear. To stop this, the sides of the tray are built taller to completely cover the runner, protecting the bag.

A lot of slides, over time, started to rattle back and forth when closed. This was caused by the locking system coming loose. In many slides this was not adjustable, and the only option was to grin and bare it. We countered this by using our unique triple lock system. This means that the slide can be adjusted to give a nice tight lock and no rattle.

We found the runners were that achilles heel of the slide. If we used a below par runner, the result was a rubbish slide. We found an excellent quality runner that was stiff, didn't rattle, used rubber bushes to assist locking, and over-extended by 50mm to ensure the fridge was well clear of the car.

And the cost? Well we knew we were never going to be able to compete with the products coming in from China & the like, however, surprisingly, given all the improvements and extra features compared to other slides on the market, our price is very competitive. By designing a simple, intelligent slide, we managed to keep the cost down to only \$20-\$30 more than most of our competitors. A small price to pay for piece of mind, and piece and quiet.

### **Incorporated Strap Loops**

Rather than welding or joining loops on, we incorporate our tie down loops into the top tray for strength and reliability

### **High Tray Sides**

The sides of the top tray are purposely tall to protect insulating bags for rubbing in the runners

### **Single Piece Top and Base Trays**

We use a computer punched and folded, single piece top and base trays to eliminate flex therefore stopping squeaks. It uses fewer nuts and bolts and requires no welding.

### **Heavy Duty Runners**

The runners are rated to 120kg and are strong enough for even the heaviest of fridges. They feature rubber locking bump stops to eliminate rattles or shakes and give a solid, positive lock.

### **Adjustable Locking Bar**

This is one of the only adjustable slides on the market. Using a unique triple lock system, we make sure that your slide will never rattle while driving and locks firmly in and out.

*Your Complete 4wd Storage Solution!*

## **Fridge Slide Dimensions**

<b>Part #</b>	<b>Internal Tray Dimensions</b> <i>Width x Length</i>	<b>External O/A Dimensions</b> <i>Width x Length x Height *</i>
<b>FSL001</b>	385 x 725	445 x 760 x 75
<b>FSL002</b>	420 x 725	480 x 760 x 75
<b>FSL003</b>	460 x 725	520 x 760 x 75
<b>FSL008</b>	460 x 800	520 x 835 x 75*
<b>FSL005</b>	505 x 725	565 x 760 x 75
<b>FSL006</b>	505 x 825	565 x 860 x 75*
<b>FSL007</b>	525 x 850	585 x 885 x 75*
<b>FSL004</b>	460 x 860	520 x 895 x 75
<b>FSL009</b>	540 x 1000	600 x 1035 x 75*

***\*Stainless Steel Combo table upgrade is only available on the FSL006, FSL007, FSL008, FSL009 slides.***

***\* NOTE: The external O/A slide height is then increased by 85mm, from 75mm to 160mm with the combo table option\****
